

THE ARBORIST

Federal Infrastructure Risk Reduction

CAPABILITY STATEMENT

When the risk exceeds the standard response - that is exactly where we operate.

Damage or Incidents

The Arborist delivers infrastructure risk reduction across NPS, USACE, NCA, and the USDA Forest Service. 13 federal awards, 27 contract actions, all as prime, zero damage. Every award runs under an ISA Board Certified Master Arborist on staff. We operate where standard crews cannot: 70° ravine slopes, crane work over occupied infrastructure, Civil War earthworks, and active cemeteries during services. Emergency mobilization in 24 hours against a 48-hour standard.
